"PLOUGHS"

"PLOUGHS" Messrs M. Forrester & Co. Beg to announce to the Public that they have lately introduced into this country with great success the

Celebrated Two and Three Furrow Ploughs of Messrs. HOWARD ENGLAND

These WROUGHT IRON PLOUGHS fitted with heavy and shares of steel, have been extensively used in the Province and are destined to supersede the light and flimsy wood implements made by the Americans.

By means of a simple hand lever the upward movement of the mouldboard is raised the plough out of work at the end, thus saving the driver the usual hard living contact with ploughing.

The two Furrow Plough is drawn by a pair of bullocks, turning double the work of a single plough and still with only one man.
